

A hand is holding a blue rectangular sign with white text that reads "Come In WE'RE OPEN". The sign is positioned behind a chain-link fence, and the background is blurred, showing what appears to be an outdoor setting with some foliage and a building.

We all have dreams for doing work that makes us proud and happy. Yet, it's not always easy to achieve them if you're a minority, woman, immigrant or someone without a degree. That's why the NIIC, or we as like to call it, The Nothing Is Impossible Club, wants you to know that we believe you can do it.

First you need time to dream and imagine. Then you'll want someone who can hold your hand step-by-step until you have a workable, real-life plan. We provide the resources, mentoring, feedback and support you need, free of charge. Then, we'll help you create a business plan that leads to You, Inc.

WHY WOULD WE DO THIS? Our economy only thrives when small business does. And believe it or not, there are people out there who want to help others get a shot at something better for themselves.

This NIIC Program, for instance, is made possible with help from a grant from the Foellinger Foundation, a family-funded legacy that supports Allen County residents with the greatest economic need and the least opportunity — from minorities to women to immigrants and others. They offer grants to those with the determination to be self-reliant and build our community.

New small businesses create new opportunities for everyone. You're someone who can make it all possible.
